

VERSUS

VIRTUAL REALITY LASER TAG

Worthwhile Investment

Versus introduces a classic and beloved game into a new dimension. We are doing what no other virtual reality experience has done.

Large-Scale Arena

Modular Space for multiplayer experiences with 1 operator.

An Attractive Experience

Increase foot traffic to your center with awe inspiring scenography and content.

The Story

You play the role of the everyday citizen who gets transformed into the world of Versus. Versus immerses you into a cyber 80's software world of a mainframe computer that leaves you fending for your team in an effort to get back to reality.

Win the Laser Tag Tournament

CREATED BY GREAT MINDS

How it works

The idea behind Versus is rebooting the game with modern technology and game concepts learned over the past decades. Once you enter the battle, all senses are heightened towards eliminating the other team. As a player in the game, you have a blaster in one hand, and a shield in the other.

IMMERSE IN ALL YOUR SENSES

A physical and sensorial experience

Versus runs on the newest standalone VR headsets, including the Oculus Quest and Vive Focus Plus. These wireless headsets allow multiple players to share an environment, running, dodging, and playing together in a way previously impossible in Virtual Reality.

PLAY WITH FRIENDS

Multiplayer Adventure

Versus is a scalable experience depending on the size of the room, from 1vs1 to 4v4, it pits players against each other in a team deathmatch. Suitable for friends and family looking for exciting competition.

TECHNICAL INFORMATIONS

Technology

Virtual Reality Headset:
HTC Vive Focus / Oculus Quest
Supported Controllers:
HTC Vive Focus Wands & Oculus Touch

THE PERFECT SCENOGRAPHY

Dimension

Minimum space required for installation:
4mx6m – 9mx6m
